This peculiar form of following up the advantages sourcing from such a Fond as that referred to produced the letter from the Chamber of Commerce of let March last, to which letter that of Admiral Salmon (published elsewhere) is a roply. Of the deliciously vague official style of that production, and the convenient ambiguity which the official style favours, we need not speak. These things are becoming exceedingly familiar to Hongkong residents. The requirements in connection with the survey of the Chinese Coast are fully considered,'statement which must be guaged by the estimate which is formed of those requirements; but their Lordships (of the Admiralty) are unable to undertake to keep a vossel permanently on that Coast, to the neglect of other Imperial Interests. Such being the spirit in which the efforts of the mercantile community here are met, it will not be surprising that the next time a call is made to co-operate with the Naval

Authorities, the response will not be so

not even a noteworthy incident. The members-those of them who were present -devoted themselves to the dreary and somewhat unsavoury task of considering the conditions on which the contracts for the disposal of might soil and city refuse are to be let. There was a motion, however, made at the meeting which may lead to very important results, if an honest sick-headache and biliousness when the attempt is made to carry out what is suggested. We refer to Mr Ede's resolution That the Secretary os saked to report at next meeting as to the beat method for keeping the Board informed at each meeting, about the work that is being done by the Board's officers. We have often pointed out the difference that exists between Singapore and Hongkong, two similarly situated communities, in the matter of local Government. At Singapore there is of course a Municipal Council, and to that Council and through it to the public there is submitted every month a statement of the work done by its officers. This keeps the community thoroughly are courant of every work of a public character that is going on in town. We have before us one of these reports, which fills nearly four columns of the Straits Times: The various headings will give an idea of the comprehensive hature of the statement. Here are a few :- Supplementary budget; valuation of lands. license fees for offensive and dangerous trades, verendahs, dogs, backney carriages, cattle sheds, slaughter houses, asgo manu. factories, food, town cleansing, muddrains, town roads and streets, suburban roads, bridges, drainage, ec. fic. A number of these subjects are, we know, beyond the sphere of our Sanitary Board, whose functions are of the most limited character. Still if a beginning were only made, the example set by the Board might react on the sleepy members of the Legislative Council, who might, until such time as a Municipal Council were obtained, insist on reports being submitted to the Legislative Council by that great spending department, the Surveyor General's Department, about whose doings the public are kept in almost total ignorance. We have over and over again maintained that it is a disgrace to a British Colony that lakhs upon lakhs of public money should be consumed without the public being informed what is done with the money. A yearly budget is, it is true, made up, in which the estimated exber of Commerce by Admiral Sir Nowell | penditure for the forthcoming year is given Salmon, upon the survey of the Coast of -so much for bridges, an much for roads Ohina, deserves passing notice. We cheerfully join in the general demand of the American press that the new British Minister shall let us know how he pronounces his name, Panncefote. If it is Pawnzy-forto we want to know it, now. It would seem to be wisdom that others than members of the Can-pa-Gael or politicians in fear of them, or in league with them, shall conduct the search for and prosecution of Cronin's murderers.

the politics of two countries is likely to get disliked by the American people. The oath taken by its members binds them 'to establish, supp rt and defend a republican form of government in Ireland.' Yet those of them who are naturalized took an oath to 'renounce all allegiance -and fidelity to every foreign prince, potentate. state and sovereignty.' The obligations of the two oaths are inconsistent, and even the appointment to office of men like Egan who have taken both, cannot obscure this fact. It is one thing for an American citizen to sympathize with the struggle of another country for larger freedom, but is quite unother thing for him to bind his fidelity by an outh to revolutionize another Government and support it when offense against the proprieties of our

citizenship. It is a violation of our laws.

The increase in the use of malt liquors in

this country may furnish some key to the desire of English syndicates, to get control of American breweries. In 1863 the Federal tax on malt liquors yielded \$1.5 0.000 in revenue. In 1866 it increased to \$5,000,000; in 1879, to \$10,000,000; in 1882, to 815,000,000, and in 1888, to \$23,000,000. The quantity manufactured increased from 2,000,000 barrels in 1863, to over 24,000,000 barrels in 1888. Of course there is no method of getting at the profits of the business, but they are believed to be enormously in excess of the profits of brewing in

England. The difference seems to have dazzled English investors, and they are offering fabulous prices for this class of A juror in Cincinnati, under examination as to his qualification to sit in the panel, refused to answer hew many children he had. The Court compelled

THE CHINA REVIEW.

PUBLISHED BI-MONTHLY TRNTH YEAR.

THIS Review, which was intended to meet the wants of many students of Chinese caused by the discontinuance of Notes and Queries on China and Japan, has reached its Seventeenth Volume . The Review discusses those topics which are uppermost in the minds of students of the 'For East' and about which every intelligent person connected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc., of China, Japan, Mongolia, Tibot, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commerce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be inademore-generally

The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on-such topics. Authors and Publishers are requested to forward works to Editor, China Review, care of China

The Notes and Queries are still continued: and form an important means of obtaining from and diffusing among students knowedge on obscure points. The Correspondents' column also affords further and greater facilities for the inter-

change of views and discussion of various Original contributions in Chinese, Latin, or any of the Modern Languages are reserved. The papers are contributed by the members of the various Consular, the Imperial Customs, and Hongkong Services, and also by the Missionary bodies amongst whom a high degree of Chinese scholarship assiduously cultivated. Amongst the

regular contributors are Drs. Chalmers, Eitel, Bretschneider, and Hirth, Professor Legge, and Messrs Balfour, Watters, Stent, Phillips, MacIntyre, Groot, Jamieson, Faber, Kopsch, Parker, Playfair, Giles, Piton, and Taylor, -all well-known names, indicative of sound scholarship and thorough mastery of their subject, The Subscription is fixed at \$6.50 per

annum, postage included - payable in ad-Orders for binding volumes will be promptly attended to; Address, Manager, China Mail Offico.

OPINIONS OF THE PRESS.

"All our learned societies should subscribe to this scholarly and enterprising Remew. - Northern Christian Advocate (U.S.) 'The China Review * * * * has an excellent table of contents.'-Celestial Empire. *The Publication always couttins subjects of interest to sojourners in the Far East and he present issue will hold favourable if not sdvantageous comparison, with prepeding numbers. - Celestial Empire.

This number contains several articles of interest and value. - North-China Herald. The China Review for September-October fully maintains the high standard of excellence which characterises that publiation, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritache. on "the Amount of Precipitation (Rain and Snow) of Poking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting. -- North-China

'A substantial and reliable Review whiel all students of China and the Chinese would do well to patronise. - Chrysauthemum. The November-December number of LAND INVESTMENT AND the China Review contains less variety than usual, but the few articles are very interes ting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chipese" treats of a question that must neces sarily he of great importance in the eyes of all missionaries. . Mr E. H Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China i given. Mr F. H. Ballour contributes i paper of some length entitled "The Emperor Cheng, founder of the Chinese Em-pire," which will be read with genuine interest by students of Chinese history, A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number. —H.K. Daily Press.

Daily News.

Trubner's Oriental Record contains the following notice of the China Review !-The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, some what similar to that which has been filled in India by the Culcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirmay fairly be looked or from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the carper of the Chinese post-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, to not only historically valuable, but is also distinguished by its literary grace. Boulde cotices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that 'Notes' and 'Queries' are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar
